KEY PLANNING FIGURES

Food Security 1.3 million Food Insecure People	Health 5.4 million People at risk of Epidemics 13 000 People affected by Floods in 2013
Nutrition 144 000 SAM Children 370 000 MAM Children	Population displacement 32 000 Refugees

KEY DRIVERS OF THE CRISIS

- Chronic structural vulnerabilities compounded by recurrent shocks (droughts, floods, epidemics, locusts) have eroded household and community resilience and forced families to result to negative coping strategies.
- Prolonged displacement (Mali conflict) puts additional stress on the communities hosting refugees (and up to 200,000 of their animals).
